

Westwood's 10-year vision is to reach people with the love of Jesus **here** on our campuses, **near** in neighboring communities and **far** across the world. We believe that God is calling us to boldly step out in faith to join him in a movement already taking place. Here's an update!

- More than 8,100 people attended Easter services at our three campuses, which is the most ever. 72 people were baptized at our Easter Sunday baptism celebration.
- Five months ago, we launched the Bush Lake Campus. Over 300 people worship there each week.
- Student Ministry attendance is up more than 500 students!

- A church plant for Southeast Asian Tamil language speakers launched this month at the Bush Lake campus in partnership with Global Harvest Church.
- Bush Lake will soon house an international ministry center in a portion of the facility that we are not utilizing.
- We're launching an online campus and microsite locations in the fall.

- In Nepal, The Timothy Initiative (TTI) has trained leaders and planted 80 home-based churches, reaching 325 new believers.
- Partnering with our denomination, churches have also been planted in Sweden and Germany.
- With Cru International, churches are being planted in Moldova and other former Soviet-bloc countries.

We're grateful for the generosity of the Westwood family that allows us to move forward with this vision that blesses people with the gospel of Jesus Christ here, near, and far. Our giving is both ahead of one year ago and at budgeted levels. Thank you for your consistent generosity!
